 - (e) *Date each tank was last used:* (TK # 1), (TK # 2), (TK # 3)
- (4) The owner must notify this Office when completion of tank upgrade/repair has occurred, on the Notification for Underground Storage Tank Form and the licensed contractor must submit the required job schedule for underground piping upgrade, leak detection, spill and overfill prevention to the OSFM prior to the work being performed. Both forms can be obtained at www.state.il.us/osfm or by calling (217)785-1020.
- (5) **SPECIAL CONTINGENCIES:** This permit was originally applied for as an abandonment of these tank systems; however, after review of the site plan through Dale Tanke and Jim Coffey, it has been determined that these tanks can be removed. If there are any problems with this removal, it will require a statement from a registered structural engineer (to recommend abandonment based on the possibility of undermining support of the nearby railroad tracks). A site assessment for this site is on file. The certificate of site condition states this is a clean site.
