Facility #: 4006052  
Permit #: 00802-2023REM  
Request Rec'd: 07/18/2023  
Approval Date: 07/19/2023 DS  
Permit Expires: 01/19/2024

**Permit for REMOVAL of Underground Storage Tank(s) and Piping for Petroleum and Hazardous Substances**

Permission to remove underground storage tank(s) or piping is hereby granted. Such removal must be in complete accordance with all sections and procedures specified in 41 Illinois Administrative Code Parts 174, 175 and 176. The contractor the permit was issued to shall establish a date certain to perform the UST activity by scheduling the permitted activity through their UST contractor portal account. If the Storage Tank Safety Specialist (STSS) observes evidence of a release, the owner, operator or designated representative of the UST owner/operator must notify the Illinois Emergency Management Agency (IEMA). The incident number shall be given to the STSS prior to his/her leaving the site. After the removal is completed, the owner/operator shall have a site assessment performed by measuring for the presence of a release where contamination is most likely to be present at the UST site. This is in accordance with the Illinois Administrative Code 176.360 (a) regulations and 40 CFR Part 280.72 (a) Federal Register Requirement. The tank owner must submit an amended Notification for Underground Storage Tanks form within 30 days after the removal at:  
<https://webapps.sfm.illinois.gov/USTPortal/NotificationForm>.

**THIS PERMIT IS VALID FOR SIX MONTHS FROM THE APPROVAL DATE.**

<b>OWNER OF TANKS</b> - Corporation, partnership, or other business entity: Mac's Convenience Stores, LLC 1100 Situs Court, Suite 100 Raleigh, NC 27606 (None) County Contact: Elizabeth Patterson 984/389-1765	<b>FACILITY</b> - name and address where tanks are located: Mac's #1211 515 South Clinton Bloomington, IL 61701 McLean County Contact: Matthew Jordan 217/245-9528
---	--

**Tanks on the Permit**

Tank #	Capacity	Product	Last Used Date
7	10,000	Gasoline - Regular	
8	10,000	Gasoline - Regular	
9	10,000	Gasoline - Premium	

**Summary of Work**

2. Disconnect the product piping and electrical supply from the four (4) gas dispensers. Plug the inlets and remove the dispensers from the islands. Set dispensers to the side for re-installation.
3. Blow the fuel back to the underground storage tanks.
4. Due to current condition of concrete, saw cut and demo under entire canopy per the hand sketch drawing. Demo islands, including protective bumpers and remove spoils from site for disposal. 4862SF of R&R is included in the quote.
5. Saw cut and demo an approximate 10' x 37' area around the three (3) STP sumps and tank interstitial manholes. Excavate at the tanks to expose the STP sumps and interstitial risers.
6. Chase the existing electrical conduit from the dispensers back to the East side of store per drawing. Saw cut, demo, and excavate the electrical ditch. Currently the sidewalk on East side of building is pavers, this will be removed, and a concrete walkway will be repoured.
7. Disconnect the product supply lines and electric at each of the three (3) sub units.
8. Remove all the conduit and wire from each dispenser sump and STP sump back to the store building.
9. At the existing dispenser and STP sumps, disconnect the chase pipe. Cut back the product supply lines and electrical conduit. Remove the sumps and haul from site for proper disposal.
10. Remove the three (3) sub units and haul from site for disposal.
11. Pull the existing product supply lines through the existing chase pipe in the presence of the ILOFSM. Remove the piping and chase. Haul from site for proper disposal.
12. Excavate around the three STP sumps down to the tank top. Remove all (3) sumps and haul from site for disposal.

**Special Contingencies**

The owner must notify this Office when completion of tank removal has occurred, on the Notification for Underground Storage Tank Form. This form can be obtained at [www.sfm.illinois.gov](http://www.sfm.illinois.gov) or by calling (217)785-1020. After removal is completed, the owner/operator shall perform a site assessment by measuring for the presence of a release where contamination is most likely to be present at the UST site. This is in accordance with the Illinois Administrative Code 176.360 (a) regulations and 40 CFR Part 280.72 (a) Federal Register Requirement.
