Approval Date: 09/10/2023 DS
Permit Expires: 03/12/2024

Permit for REMOVAL of Underground Storage Piping for Petroleum and Hazardous Substances

Permission to remove underground storage tank piping is hereby granted. Such removal must be in complete accordance with all sections and procedures specified in 41 Illinois Administrative Code Parts 174, 175 and 176. The contractor the permit was issued to shall establish a date certain to perform the UST activity by scheduling the permitted activity through their UST contractor portal account. If the Storage Tank Safety Specialist (STSS) observes evidence of a release, the owner, operator or designated representative of the UST owner/operator must notify the Illinois Emergency Management Agency (IEMA). The incident number shall be given to the STSS prior to his/her leaving the site. After the removal is completed, the owner/operator shall have a site assessment performed by measuring for the presence of a release where contamination is most likely to be present at the UST site. This is in accordance with the Illinois Administrative Code 176.360 (a) regulations and 40 CFR Part 280.72 (a) Federal Register Requirement. The tank owner must submit an amended Notification for Underground Storage Tanks form within 30 days after the removal at:
<https://webapps.sfm.illinois.gov/USTPortal/NotificationForm>.

THIS PERMIT IS VALID FOR SIX MONTHS FROM THE APPROVAL DATE.

OWNER OF TANKS - Corporation, partnership, or other business entity: Illinois Department of Corrections 1301 Concordia Court P.O. Box 19277 Springfield, IL 62703 Sangamon County Contact: Patrick Ruyle 217/735-5581	FACILITY - name and address where tanks are located: Logan Correctional Center 1096 1350th Street Lincoln, IL 62656 Logan County Contact: Duane Sparks 217/735-5581

Tanks on the Permit For Piping Only

Tank #	Capacity	Product	Last Used Date
6	2,500	Diesel Fuel	

Summary of Work

As part of a facility upgrade, the 2500 Gallon Diesel tank is scheduled to be abandoned in place at a later date. The piping was scheduled to be abandoned too. However, a section of the piping from the building to where it is run with other utilities, needs to be removed. This section of piping is located in the same place as the new generator concrete pad. We propose to properly remove this section of piping and perform an environmental assessment below the piping. At another date in the future, the rest of the piping and the 2500 gallon diesel tank will be abandoned in place.

Special Contingencies

After removal is completed, the owner/operator shall perform a site assessment by measuring for the presence of a release where contamination is most likely to be present at the UST site. This is in accordance with the Illinois Administrative Code 176.360 (a) regulations and 40 CFR Part 280.72 (a) Federal Register Requirement.
