Facility # 2-006898  
Permit # 01873-2006UPG  
Request Rec'd 12/13/2006  
Amended Date  
Approval Date 12/18/2006 DS  
Permit Expires 6/18/2007

**Permit for UPGRADE or REPAIR of Underground Storage Tank(s) and Piping for Petroleum and Hazardous Substances.**

Permission to upgrade or repair underground storage tank(s) or piping is hereby granted. Such upgrade or repair must be in complete accordance with acceptable materials as specified in the Federal Register, Part II Environmental Protection Agency, 40 CFR Parts 280 and 281, and also with all sections of 41 Illinois Administrative Code, Part 170. The contractor the permit was issued to or an employee of that contractor (this does not include a subcontractor) shall submit a required job schedule for underground piping upgrade, leak detection, spill and overfill prevention of underground storage tank(s) to the Office of the State Fire Marshal, Division of Petroleum and Chemical Safety. **THIS PERMIT IS VALID FOR SIX MONTHS FROM THE APPROVAL DATE.**

**(3) UPGRADE OR REPAIR OF TANKS:**

- (a) *Number and size of tanks being upgraded or repaired:* (TK # 12) - 2,500 gallons
- (b) *Type of tanks:*
- (c) *Type of piping:* (TK # 12) - (Installing) A.O. Smith double wall fiberglass (TK # 12) - Installing partial piping to repair breaks in line. The breaks are located as follows: one section is on south side of building where the contractor will also install a transition sump. At this transition sump the piping will go from underground to above ground where it will then enter building and go to a diaphragm pump. From the pump it discharges to other outside lines that run underground on the north side of building. There is approximately 20' to 25' of existing piping under the slab of the building that will be abandoned under a pending abandonment permit. The second section of piping to be repaired is on the north side of building. The contractor will repair the section and also install a new transition sump in the area.
- (d) *Product to be stored in each tank:* (TK # 12) - Lube Oil
- (e) *Type of leak detection being used:*  
*Tank:*  
*Piping:*
- (f) *Corrosion Protection being used:*  
*Tank:* \_\_\_\_\_  
*Piping:*
- (g) *Spill containment devices:* \_\_\_\_\_
- (h) *Overfill prevention devices:* \_\_\_\_\_
- (i) *Manway accessible at grade:* \_\_\_\_\_

- (4) The owner must notify this Office when completion of tank upgrade/repair has occurred, on the Notification for Underground Storage Tank Form and the licensed contractor must submit the required job schedule for underground piping upgrade, leak detection, spill and overfill prevention to the OSFM prior to the work being performed. Both forms can be obtained at [www.state.il.us/osfm](http://www.state.il.us/osfm) or by calling (217)785-1020.
