Tanks on the Permit

Tank #	Capacity	Product	Fill Material	Comments
5	8,000	Gasoline - Mid-grade	Sand	

Explanation of Waiver for Abandonment

The tank to be abandoned in place is between 2 other active USTs that are in operation and removing the tank would compromise the other 2 tank systems. The piping is also in the same trench as the other active UST piping that will remain in service. It is infeasible to remove this tank and piping.

Location of Tanks Being Abandoned

The tank to be abandoned in place is between 2 other active USTs that are in operation and removing the tank would compromise the other 2 tank systems. The piping is also in the same trench as the other active UST piping that will remain in service. It is infeasible to remove this tank and piping.

Location of Piping Being Abandoned

The tank to be abandoned in place is between 2 other active USTs that are in operation and removing the tank would compromise the other 2 tank systems. The piping is also in the same trench as the other active UST piping that will remain in service. It is infeasible to remove this tank and piping.

CONTAMINATED SITE!

IEMA Number
2024-0701

Special Contingencies

NOTE: Only the listed material (sand) can be used to fill and abandon the tank.
