(3) INSPECTION OF INTERIOR LINING OF TANKS:

- (a) *Number and size of tanks being inspected:* (TK # 1, 2) - 6,000 gallons, (TK # 3, 4) - 10,000 gallons, (TK # 5) - 2,000 gallons
- (b) *Type of tanks:*
- (c) *Product stored in each tank:* (TK # 1, 2, 3, 4) - Gasoline, (TK # 5) - Diesel Fuel
- (d) *Manway accessible at grade:*

- (4) **Any tank that has been out of service for a twelve-month consecutive period cannot be put back into service unless it meets all new UST upgrade regulations. This permit is for the inspection of the existing interior lining only. No repairing, upgrading, or interior lining is authorized with this permit.**
- (5) **The owner must notify this Office when completion of tank interior inspection has occurred, on the Notification for Underground Storage Tank Form. This form can be obtained at www.state.il.us/osfm or by calling (217)785-1020.**
- (6) **SPECIAL CONTINGENCIES:** Tank relining, lining inspection and entry permit work in reference to manways/manholes must abide by sections 170.430(a)(1)(C) and (D), 170.430(b)(5), and 170.430(c)(10). Tanks 1,2,3,4,5 appear to have been lined in 1990 through permit #7067 REL; however, there is no inspector log and no notification form for the permit. Tank #5 was supposedly lined again in 1992 through permit #6289-92 REL (a notification form claims the permit was completed for tank #5). Tanks 6,7,8 were installed in 1994, are double wall composite tanks, and were never lined.
