Permit for UPGRADE or REPAIR of Underground Storage Tank(s) and Piping for Petroleum and Hazardous Substances

Permission to upgrade or repair underground storage tank(s) or piping is hereby granted. Such upgrade or repair must be in complete accordance with acceptable materials as specified in the Federal Register, Part II Environmental Protection Agency, 40 CFR Parts 280 and 281, and also with all sections of 41 Illinois Administrative Code, Parts 174, 175 and 176. The contractor the permit was issued to shall establish a date and time certain to perform the UST activity by scheduling the permitted activity through their UST contractor portal account. All testing forms must be submitted prior to the final being conducted.

THIS PERMIT IS VALID FOR SIX MONTHS FROM THE EXTENSION DATE.

↳ Leak Detection - Piping	Sump Sensor with positive shutdown	New

Dispenser 21/22 Equipment

Equipment Type	Permit Equipment	Action
Dispenser	Single Wall UDC Sump	New
↳ Leak Detection - Piping	Sump Sensor with positive shutdown	New

Summary of Work

We are installing a new 30,000g Premium tank per install permit, because we are installing this tank we are upgrading the sumps on existing tanks(including fill equipment assembly, and STP piping), adding new siphon lines to each tank sump, and re-constructing vent lines per removal permit. We will also be adding new product lines off of the existing product lines for the five new single wall dispenser sumps at an interception point. All sumps will be equipped with new sump sensors. We will also be adding a new single wall fiberglass transition sump with an additive injection system off of existing tanks. Canopy will be reconstructed to cover the new dispensers.
