**Tanks on the Permit For Piping Only**

Tank #	Product	Capacity	Tank Status	Regulated Status
5	Diesel Fuel	30,000	Currently in use	Federal

**Tank 5 Equipment**

Equipment Type	Permit Equipment	Action
Piping	Shear Valves	New

**Summary of Work**

Replacement of the shear valve under dispenser 24, line test to follow directly behind.

**Special Contingencies**

**Replacement Reason:**

The testing company did not file the testing under the correct tank number. They have since done this. We also failed to make it to the inspection which is our fault. The store also could not find the paperwork that stated the shear valve was replaced. All the work has been complete and now uploaded. Need to re-schedule the final.
