Equipment Type	Permit Equipment	Action
Dispenser	Single Wall UDC Sump	New
↳ Leak Detection - Piping	Sump Sensor with positive shutdown	New

## Dispenser 21/22 Equipment

Equipment Type	Permit Equipment	Action
Dispenser	Single Wall UDC Sump	New
↳ Leak Detection - Piping	Sump Sensor with positive shutdown	New

## Summary of Work

We are installing a new 30,000g Premium tank per install permit, because we are installing this tank we are upgrading the sumps on existing tanks(including fill equipment assembly, and STP piping), adding new siphon lines to each tank sump, and re-constructing vent lines per removal permit. We will also be adding new product lines off of the existing product lines for the five new single wall dispenser sumps at an interception point. All sumps will be equipped with new sump sensors. We will also be adding a new single wall fiberglass transition sump with an additive injection system off of existing tanks. Canopy will be reconstructed to cover the new dispensers.
