(3) REMOVAL OF TANKS:

- (a) *Number and size of tanks being removed:* (TK # 2) - 4,000 gallons
- (b) *Product stored in each tank:* (TK # 2) - Heating Oil
- (c) *Reason of tanks being removed:* Discovered during demo. New construction of City Hall building.
- (d) *If tank(s) is leaking, indicate IEMA incident number:*
- (e) *Date each tank was last used:* (TK # 2) - 12/30/1970

- (4) The owner must notify this Office when completion of tank upgrade/repair has occurred, on the Notification for Underground Storage Tank Form and the licensed contractor must submit the required job schedule for underground piping upgrade, leak detection, spill and overfill prevention to the OSFM prior to the work being performed. Both forms can be obtained at www.state.il.us/osfm or by calling (217)785-1020.

- (5) **SPECIAL CONTINGENCIES:** Technical services did not receive this permit until after 3:00 p.m. on 09/06/06. Petroleum & Chemical Safety Division received this permit on 08/14/06; Technical Services was unaware of this since there was no temporary # given to it for tracking purposes. Also, before this permit could be processed a new owner notification form had to be sent to us and entered. A new form was received at this office 08/24/06. The notification form was not processed when it came in; thus the permit could not get processed either. Kyle Blakeman of DPCS did not know that the notification form for new owner was even received until Jennifer Doyle called and asked about it. Once Jennifer told Kyle that she sent it, Kyle had to locate it. The notification form had not been entered into the system as it should have been as soon as it was received; consequently, a delay in the process occurred.
