(3) REMOVAL OF TANKS:

- (a) *Number and size of tanks being removed:* (TK # 2) - 6,000 gallons
- (b) *Product stored in each tank:* (TK # 2) - Gasoline
- (c) *Reason of tanks being removed:*
- (d) *If tank(s) is leaking, indicate IEMA incident number:* 040151
- (e) *Date each tank was last used:* (TK # 2) - 06/05/2003

- (4) The owner must notify this Office when completion of tank upgrade/repair has occurred, on the Notification for Underground Storage Tank Form and the licensed contractor must submit the required job schedule for underground piping upgrade, leak detection, spill and overfill prevention to the OSFM prior to the work being performed. Both forms can be obtained at www.state.il.us/osfm or by calling (217)785-1020.

- (5) **SPECIAL CONTINGENCIES:** Impressed current for the tanks was installed 07/02/98 from permit #1973-98UPG. Monthly inventory control and / or manual tank gauging appears to be the only method of leak detection since the time these tanks were installed (sometime in 1978). Both tanks were supposed to have been lined through permit #04002-2003REL; however, our records show that only tank #2 was inspected and failed the inspection. There is no mention of tank #1 on the log nor on the inspection certification. (there is no evidence these tanks ever had a lining). Tank #2 was red-tagged on 02/19/04.

(6) PERSON, FIRM OR COMPANY PERFORMING WORK: 109 N Main, P. O. Box 128, INS Cancellld for non payment as of 2/15/2007	Contact Person: Phone: Contractor Registration # Exp.
