Permit for ABANDONMENT IN PLACE of Underground Storage Tank(s) and Piping for Petroleum and Hazardous Substances.

Permission to abandon in place underground storage tank(s) or piping is hereby granted. Such abandonment must be in complete accordance with acceptable materials as specified in the Federal Register, Part II Environmental Protection Agency, 40 CFR Parts 280 and 281, and also with all sections of 41 Illinois Administrative Code, Part 170. The contractor the permit was issued to or an employee of that contractor (this does not include a subcontractor) shall establish a date certain to perform the UST activity by contacting the Office of the State Fire Marshal, Division of Petroleum and Chemical Safety, by telephone at the Springfield office between 8:30 a.m. and 12:00 p.m., at which time a mutually agreed upon date and time for the UST activity shall be scheduled. **THIS PERMIT IS VALID FOR SIX MONTHS FROM THE APPROVAL DATE.**

(3) ABANDONMENT IN PLACE OF TANKS:

(a) Number and size tanks being abandoned: (TK # 8) - 2,000 gallons

(b) Location of tanks being abandoned:

(4) This permit is VOID if contamination is revealed during abandonment procedures or if tanks are not as indicated on your granted permit site plan. If contamination is revealed, this abandonment can continue only when the contaminated site section (2) of the certification on site condition has been submitted to our Office.

(5) SPECIAL CONTINGENCIES: Tank #8 & #9 piping were manifolded together within an existing containment sump through permit #00728-2005UPG. This new abandonment permit is to abandon the existing piping for tank #8. According to original install site plan (7553 INS), there is an existing underground electric service line running under or over the existing product line piping trench, and running east / west in between building and tank field. STSS must field verify whether or not all tank systems have European Suction and an automatic tank gauge. The original install permit is vague on this issue and the rest of the documentation contradicts itself (either way, it appears the tank and piping both at least have interstitial monitoring).

(6) The owner must notify this Office when completion of tank abandonment has occurred, on the Notification for Underground Storage Tank Form. This form can be obtained at www.state.il.us/osfm or by calling (217)785-1020.
