**(3) ABANDONMENT IN PLACE OF TANKS:**

**(a) *Number and size tanks being abandoned:*** (TK # 7) - 10,000 gallons

**(b) *Location of tanks being abandoned:***

- (4)** This permit is VOID if contamination is revealed during abandonment procedures or if tanks are not as indicated on your granted permit site plan. If contamination is revealed, this abandonment can continue only when the contaminated site section (2) of the certification on site condition has been submitted to our Office.
- (5) SPECIAL CONTINGENCIES:** Contractor states the tank is only 2' from adjacent tank; hence, removal of tank would undermine structural support of the tank. The piping for the antifreeze tank will remain. It will be re-used for a future above ground antifreeze tank to deliver product from the compressor building to the maintenance garage (see site plan). Top of UST will be exposed and cut open. UST will be filled with concrete slurry. Permit #00007-2006UPG is valid until 07/04/06 for tanks 1,2,3,4,5,6. Permit #00119-2006REM is valid until 07/18/06 for tanks 1,2,3,4,5 (tanks will remain - permit is to remove piping only - see permit #00007-2006UPG).
- (6) The owner must notify this Office when completion of tank abandonment has occurred, on the Notification for Underground Storage Tank Form. This form can be obtained at [www.state.il.us/osfm](http://www.state.il.us/osfm) or by calling (217)785-1020.**
