

OFFICE OF THE ILLINOIS STATE FIRE MARSHAL

Division of Petroleum and Chemical Safety

1035 Stevenson Drive Springfield, Illinois 62703-4259 (217)785-1020

FOR OFFICE USE ONLY

Facility # 6-008081 Permit # 00872-2013UPG Request Rec'd 08/28/2013 Amended Date Approval Date 9/19/2013 JC

Permit Expires 10/03/2013

Permit for UPGRADE or REPAIR of Underground Storage Tank(s) and Piping for Petroleum and Hazardous Substances.

Permission to upgrade or repair underground storage tank(s) or piping is hereby granted. Such upgrade or repair must be in complete accordance with acceptable materials as specified in the Federal Register, Part II Environmental Protection Agency, 40 CFR Parts 280 and 281, and also with all sections of 41 Illinois Administrative Code, Parts 174, 175 and 176. The contractor the permit was issued to or an employee of that contractor (this does not include a subcontractor) shall submit a required job schedule for underground piping upgrade, leak detection, spill and overfill prevention of underground storage tank(s) to the Office of the State Fire Marshal, Division of Petroleum and Chemical Safety.

(1) **OWNER OF TANKS** - Corporation, partnership, or other (2) FACILITY - name and address where tanks are located: business entity: Kooshtard Property V, LLC Circle K #0152 1370 Avenue of the Americas, 21st Floor, 1531 West Main Street New York, NY 10019 Salem, Marion Co., IL Contact: Jonathon Ross (800) 844-8661 Ext. 1212 Contact: Joseph Crawford (618) 548-9942

(3) UPGRADE OR REPAIR OF TANKS:

- (a) Number and size of tanks being upgraded or repaired: (TK # 5) 15,000 gallons
- (b) Type of tanks:
- (c) Type of piping: (TK # 5) (Installing) partial Flexible Double Wall OPW Flexworks CP-15 non corrosive from the submersible sump to the first east dispenser sump at the back row only.
- (d) Product to be stored in each tank: (TK # 5) Gasoline
- (e) Type of leak detection being used:

Tank:

Piping: (TK # 5) - (Installing) Piping Sump Sensors Interstitial Monitoring Veeder Root TLS 350 at the submersible sump and at the first east dispenser sump at the back row only.

(f) Corrosion Protection being used:

Tank:

Piping: (TK # 5) - (Installing) partial Flexible Non-Corrosive

- (g) Spill containment devices, piping, and dispenser containment devices:
- (h) Overfill prevention devices:
- (i) Manway accessible at grade:
- (4) The owner must notify this Office when completion of tank upgrade/repair has occurred, on the Notification for Underground Storage Tank Form and the licensed contractor must submit the required job schedule for underground piping upgrade, leak detection, spill and overfill prevention to the OSFM prior to the work being performed. Both forms can be obtained at www.sfm.illinois.gov or by calling (217)785-1020.
- (5) SPECIAL CONTINGENCIES: This work plan was originally submitted as an emergency repair request that was subsequently denied since the work was more extensive than emergency repair conditions allow for under 175.710; however, the request was submitted after workday hours on 08/23/13; therefore, the work was completed before the emergency repair request could be addressed by this office. After review of the request and consultation with Shelly, it was determined the emergency repair request would have to be denied; however, for this occurrance only, this permit would be allowed to cover the repair due to the obscurity of section 175.710. All emergency repairs require a permit applied for after the fact on the next business day and require a final inspection scheduled pursuant to section 175.320(d)(4) 10 days after issuance of the permit (see section 175.710(a)). The final inspection must be scheduled by 10/03/13.

(6) PERSON, FIRM OR COMPANY PERFORMING WORK:

Neumayer Equipment Company, Inc. 5060 Arsenal Street Saint Louis, MO 63139

Contractor Registration # IL-1502 Exp. 03/26/2014
