Amended Date
Approval Date 7/21/2011 JC
Permit Expires 1/21/2012

Permit for ABANDONMENT IN PLACE of Underground Storage Tank(s) and Piping for Petroleum and Hazardous Substances.

Permission to abandon in place underground storage tank(s) or piping is hereby granted. Such abandonment must be in complete accordance with acceptable materials as specified in the Federal Register, Part II Environmental Protection Agency, 40 CFR Parts 280 and 281, and also with all sections of 41 Illinois Administrative Code, Parts 174, 175, and 176. The contractor the permit was issued to or an employee of that contractor (this does not include a subcontractor) shall establish a date certain to perform the UST activity by contacting the Office of the State Fire Marshal, Division of Petroleum and Chemical Safety, by telephone at the Springfield office between 8:30 a.m. and 12:00 p.m., at which time a mutually agreed upon date and time for the UST activity shall be scheduled. **THIS PERMIT IS VALID FOR SIX MONTHS FROM THE APPROVAL DATE.**

<p>(1) OWNER OF TANKS - Corporation, partnership, or other business entity: Anna's Place, Inc. 1151 North MacArthur Boulevard Springfield, IL 62701 Contact: Jalal (Jim) Abderahman</p>	<p>(2) FACILITY - name and address where tanks are located: Express Food Mart 1151 N. MacArthur Boulevard Springfield, Sangamon Co., IL Contact: Jalal (Jim) Abdelrahman (217) 528-0440</p>
--	--

(3) ABANDONMENT IN PLACE OF TANKS:

- (a) *Number and size tanks being abandoned:* (TK # 3, 4) - 10,000 gallons
- (b) *Location of tanks being abandoned:* CONTAMINATED SITE! IEMA Number: 2008-0054
- (c) *Location of piping being abandoned:* **Piping will be removed through a separate removal permit along with the removal of tank #5 and it's associated piping. See contingencies section.**

- (4) This permit is VOID if contamination is revealed during abandonment procedures or if tanks are not as indicated on your granted permit site plan. If contamination is revealed, this abandonment can continue only when the contaminated site section (2) of the certification on site condition has been submitted to our Office.
- (5) **SPECIAL CONTINGENCIES: This permit is for tank abandonment only. The piping for these tanks will not be allowed to be abandoned, unless soil samples are taken along the piping route / trench to determine whether or not there is soil contamination along the piping from tanks 3 & 4 to the associated dispensers. If this piping can physically be removed, a removal permit is required. The file for this facility could not be located for this office to review the original site plan for these tanks and piping. Material being used for the fill will be cement slurry. Both tanks #3 and #4 are close to the existing canopy and they are worried the canopy footings may give way if they were to excavate near the footings to remove both tanks. A site assessment is on file for the tank field. Refer to 176.330, and 175.840 for procedures concerning site assessments. A letter was received from Ron Russell stating the piping for tanks 3,4,5 will be removed along with the removal of tank 5 through a separate removal permit.**
- (6) **The owner must notify this Office when completion of tank abandonment has occurred, on the Notification for Underground Storage Tank Form. This form can be obtained at www.sfm.illinois.gov or by calling (217)785-1020.**

(7) <u>PERSON, FIRM OR COMPANY PERFORMING WORK:</u>
