Springfield, Illinois 62703-4259
(217)524-7605

FOR OFFICE USE ONLY
Facility # 4-021695
Permit # 00056-2011ABN
Request Rec'd 01/13/2011
Amended Date
Approval Date 1/18/2011 JC
Permit Expires 7/18/2011

Permit for ABANDONMENT IN PLACE of Underground Storage Tank(s) and Piping for Petroleum and Hazardous Substances.

Permission to abandon in place underground storage tank(s) or piping is hereby granted. Such abandonment must be in complete accordance with acceptable materials as specified in the Federal Register, Part II Environmental Protection Agency, 40 CFR Parts 280 and 281, and also with all sections of 41 Illinois Administrative Code, Parts 174, 175, and 176. The contractor the permit was issued to or an employee of that contractor (this does not include a subcontractor) shall establish a date certain to perform the UST activity by contacting the Office of the State Fire Marshal, Division of Petroleum and Chemical Safety, by telephone at the Springfield office between 8:30 a.m. and 12:00 p.m., at which time a mutually agreed upon date and time for the UST activity shall be scheduled. **THIS PERMIT IS VALID FOR SIX MONTHS FROM THE APPROVAL DATE.**

(1) OWNER OF TANKS - Corporation, partnership, or other business entity: Clinton Food & Gas 100 N. Grant Street Clinton, IL 61727 Contact: Surjit Singh (217) 935-6074	(2) FACILITY - name and address where tanks are located: Clinton Pantry 100 N. Grant Clinton, Dewitt Co., IL Contact: Surjit Singh (217) 935-6074
---	--

(3) ABANDONMENT IN PLACE OF TANKS:

- (a) *Number and size tanks being abandoned:* (TK # 3) - 4,000 gallons
- (b) *Location of tanks being abandoned:* CONTAMINATED SITE! IEMA Number: 940004 - see contingencies section for further details.
- (c) *Location of piping being abandoned:* See contingencies section for further details.

- (4) This permit is VOID if contamination is revealed during abandonment procedures or if tanks are not as indicated on your granted permit site plan. If contamination is revealed, this abandonment can continue only when the contaminated site section (2) of the certification on site condition has been submitted to our Office.
- (5) **SPECIAL CONTINGENCIES:** Tank and associated piping will be filled with IDOT flowable fill mix - 2541#FA1 sand - 150# cement - 35 gallons water = 1 cubic yard. Tank #3 failed internal inspection - condemned when preparing UST to be relined under permit #00428-2010REL. According to the contractor, tank #3 is located next to tank #2 on the west within 3' - it has a fire hydrant within 20' on the south - a new traffic signal box within 10' on the southwest corner. We (contractor) believe the product lines from tank #2 pass on the north side of tank #3 (the facility file does not have a site plan showing where the lines are). Facility file has photos as does Environmental Management Inc. Highway Authority agreement area map and groundwater contamination plume limits map enclosed. IEMA #940004 LPC#0390053006. Tank #3 is in contaminated soil and water. Any excavation of this area would require US EPA guidance. See NFR letter enclosed.
- (6) The owner must notify this Office when completion of tank abandonment has occurred, on the Notification for Underground Storage Tank Form. This form can be obtained at www.sfm.illinois.gov or by calling (217)785-1020.

(7) <u>PERSON, FIRM OR COMPANY PERFORMING WORK:</u>	
Laker Petroleum Services, Inc. 101 South Baughman Road Taylorville, IL 62568	Contact Person: Larry Laker Phone: (217) 824-9748 Contractor Registration # Exp.

Sincerely,
