Piping only

Permit for ABANDONMENT IN PLACE of Underground Storage Tank(s) and Piping for Petroleum and Hazardous Substances.

Permission to abandon in place underground storage tank(s) or piping is hereby granted. Such abandonment must be in complete accordance with acceptable materials as specified in the Federal Register, Part II Environmental Protection Agency, 40 CFR Parts 280 and 281, and also with all sections of 41 Illinois Administrative Code, Parts 174, 175, and 176. The contractor the permit was issued to or an employee of that contractor (this does not include a subcontractor) shall establish a date certain to perform the UST activity by contacting the Office of the State Fire Marshal, Division of Petroleum and Chemical Safety, by telephone at the Springfield office between 8:30 a.m. and 12:00 p.m., at which time a mutually agreed upon date and time for the UST activity shall be scheduled. **THIS PERMIT IS VALID FOR SIX MONTHS FROM THE APPROVAL DATE.**

(3) ABANDONMENT IN PLACE OF TANKS:

- (a) *Number and size tanks being abandoned:* (TK # 1) - 10,000 gallons
- (b) *Product stored in each tank:* (TK # 1) - Diesel Fuel
- (c) *Location of tanks being abandoned:* **See contingencies section.**
- (d) *Location of piping being abandoned:* **See contingencies section.**

(4) This permit is VOID if contamination is revealed during abandonment procedures or if tanks are not as indicated on your granted permit site plan. If contamination is revealed, this abandonment can continue only when the contaminated site section (2) of the certification on site condition has been submitted to our Office.

(5) **SPECIAL CONTINGENCIES: See also permit #00751-2013REM. This permit is for abandonment of piping only. Site assessment and certificate of site condition is on file. Permit states that concrete slurry will be used. The underground piping that connects the tank to the building is located beneath the main loading dock driveway which provides the only access to the loading dock for hospital deliveries. This loading dock actively receives supplies which are necessary for hospital operations. The original permit for this tank system did not consider piping abandonment; however, after beginning the process of removing the existing tank (this project was delayed due to the proximity of the tank to the building) it was determined that removal of the piping would be disruptive to hospital operations.**

(6) **The owner must notify this Office when completion of tank abandonment has occurred, on the Notification for Underground Storage Tank Form. This form can be obtained at www.sfm.illinois.gov or by calling (217)785-1020.**
