Permit for ABANDONMENT IN PLACE of Underground Storage Tank(s) and Piping for Petroleum and Hazardous Substances.

Permission to abandon in place underground storage tank(s) or piping is hereby granted. Such abandonment must be in complete accordance with acceptable materials as specified in the Federal Register, Part II Environmental Protection Agency, 40 CFR Parts 280 and 281, and also with all sections of 41 Illinois Administrative Code, Parts 174, 175, and 176. The contractor the permit was issued to or an employee of that contractor (this does not include a subcontractor) shall establish a date certain to perform the UST activity by contacting the Office of the State Fire Marshal, Division of Petroleum and Chemical Safety, by telephone at the Springfield office between 8:30 a.m. and 12:00 p.m., at which time a mutually agreed upon date and time for the UST activity shall be scheduled. **THIS PERMIT IS VALID FOR SIX MONTHS FROM THE APPROVAL DATE.**

(1) OWNER OF TANKS - Corporation, partnership, or other business entity: Git-N-Go Convenience Stores, Inc. 2716 Indianda Avenue Des Moines, IA 50315 Contact: Pete Klindt (515) 288-8565	(2) FACILITY - name and address where tanks are located: Git-N-Go #8 203 1st Avenue West Coal Valley, Rock Island Co., IL Contact: J.P. Flynn (309) 799-3476
---	---

(3) ABANDONMENT IN PLACE OF TANKS:

- (a) Number and size tanks being abandoned:* (TK # 3) - 6,000 gallons
- (b) Product stored in each tank:* (TK # 3) - Gasoline
- (c) Location of tanks being abandoned:* CONTAMINATED SITE! IEMA Number: H20140014
- (d) Location of piping being abandoned:* ***See contingencies section***

- (4) This permit is VOID if contamination is revealed during abandonment procedures or if tanks are not as indicated on your granted permit site plan. If contamination is revealed, this abandonment can continue only when the contaminated site section (2) of the certification on site condition has been submitted to our Office.
- (5) **SPECIAL CONTINGENCIES:** **Fill material will be flowable mortar / slurry. Site assessment is on file. Certificate of site condition indicates contaminated site. Tank #3 is in the center of the active tank field. Removal would compromise the integrity of the adjacent tanks on each side. The piping for this tank will also be abandoned since it is within active piping trenches for the other tanks. Facility file was missing from cabinet (could not review). Any substantial amount of piping that could physically be removed (inspector's discretion) would have to be removed with a removal permit.**
- (6) The owner must notify this Office when completion of tank abandonment has occurred, on the Notification for Underground Storage Tank Form. This form can be obtained at www.sfm.illinois.gov or by calling (217)785-1020.
