(3) ABANDONMENT IN PLACE OF TANKS:

- (a) *Number and size tanks being abandoned:* (TK # 5, 6) - 12,000 gallons
- (b) *Product stored in each tank:* (TK # 5, 6) - Gasoline
- (c) *Location of tanks being abandoned:* CONTAMINATED SITE! IEMA Number: 20140404
- (d) *Location of piping being abandoned:* **See the contingencies section.**

(4) This permit is VOID if contamination is revealed during abandonment procedures or if tanks are not as indicated on your granted permit site plan. If contamination is revealed, this abandonment can continue only when the contaminated site section (2) of the certification on site condition has been submitted to our Office.

(5) **SPECIAL CONTINGENCIES: The tanks and piping will be abandoned. The piping for these two tanks route to the three farthest west islands. In the near future, the owner intends to extend new piping from the existing tank / piping system (tanks 1,2,3,4) to these three abandoned islands; therefore, tanks 1,2,3,4 with their respective existing four islands will remain. Fill material will be sand and / or flowable fill. Removal of these two tank systems and their respective piping would undermine the structural support of the existing canopy.**

(6) **The owner must notify this Office when completion of tank abandonment has occurred, on the Notification for Underground Storage Tank Form. This form can be obtained at www.sfm.illinois.gov or by calling (217)785-1020.**
