(3) ABANDONMENT IN PLACE OF TANKS:

- (a) Number and size tanks being abandoned:** (TK # 1) - 10,000 gallons, (TK # 2) - 6,000 gallons
- (b) Product stored in each tank:** (TK # 1) - Gasoline, (TK # 2) - Diesel Fuel
- (c) Location of tanks being abandoned:** CONTAMINATED SITE! IEMA Number: 901212. See site plan.
- (d) Location of piping being abandoned:**

- (4)** This permit is VOID if contamination is revealed during abandonment procedures or if tanks are not as indicated on your granted permit site plan. If contamination is revealed, this abandonment can continue only when the contaminated site section (2) of the certification on site condition has been submitted to our Office.

- (5) SPECIAL CONTINGENCIES:** Site assessment is on file with soil boring locations. Tanks will be filled with flowable fill. Site assessment is on file. Tanks are currently in an active tank field. Removing tanks 1 & 2 would cause tanks 5 & 6 to move out of place since there is only two to three feet of separation. If piping is NOT either within the active tank field or within active piping tranches, it would have to be removed. If it is, then the piping will be abandoned also.

- (6)** The owner must notify this Office when completion of tank abandonment has occurred, on the Notification for Underground Storage Tank Form. This form can be obtained at www.sfm.illinois.gov or by calling (217)785-1020.
