Both forms can be obtained at www.sfm.illinois.gov or by calling (217)785-1020.

(5) SPECIAL CONTINGENCIES :

Amendment Reason: Please add disabling ball floats on all tanks. Site will be using overfill alarm for overfill protection. Remove T7 from the permit. Shear valve on 5/6 is low. We will not be able to adjust shear valve height without breaking the pipe below the shear valve. Site has dispenser containment sumps We will be replacing the existing single wall pipe between dispenser 1/2 and the transition sump with Flex

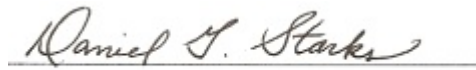

Works double wall pipe. This will be for the regular, midgrade and premium. Site has an existing dispenser containment sump.
