(5) **SPECIAL CONTINGENCIES :**

Property owner was sure a tank existed. Did not know exact location. She hired Bodine who subcontracted a ground penetrating radar contractor. GPR did not find any anomalies. Property owner insisted a tank is present. A backhoe was used to explore for the tank which was found and partially uncovered. The majority of the product (gasoline) has been vacuumed from the tank. Tank still partially buried underneath parking lot. No piping has been discovered. Tank used for personal purposes only.

Plan is to properly remove the tank so the property transaction can continue.
