**FOR OFFICE USE ONLY**

Facility # 7023241  
Permit # 01180-2021UPG  
Request Rec'd 10/13/2021  
Amended Date 12/02/2021 DS  
Approval Date 10/13/2021 DS  
Permit Expires 4/13/2022

**Permit for UPGRADE or REPAIR of Underground Storage Tank(s) and Piping for Petroleum and Hazardous Substances.**

Permission to upgrade or repair underground storage tank(s) or piping is hereby granted. Such upgrade or repair must be in complete accordance with acceptable materials as specified in the Federal Register, Part II Environmental Protection Agency, 40 CFR Parts 280 and 281, and also with all sections of 41 Illinois Administrative Code, Parts 174, 175 and 176. The contractor the permit was issued to or an employee of that contractor (this does not include a subcontractor) shall submit a required job schedule for underground piping upgrade, leak detection, spill and overfill prevention of underground storage tank(s) to the Office of the State Fire Marshal, Division of Petroleum and Chemical Safety.

|                                                                                                                                                                                                                           |                                                                                                                                                                                                |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <p><b>(1) <u>OWNER OF TANKS</u></b> - Corporation, partnership, or other business entity:</p> <p>Martin &amp; Bayley, Inc.<br/>P.O. Box 385<br/>Carmi, IL 62821</p> <p>Contact: Landon Bayley (618) 382-2334 Ext. 248</p> | <p><b>(2) <u>FACILITY</u></b> - name and address where tanks are located:</p> <p>Hucks #111<br/>102 West 10th Street<br/>Metropolis, IL 62960</p> <p>Contact: Nicole Walker (618) 382-2334</p> |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|

**(3) UPGRADE OR REPAIR OF TANKS:**

- (a) Number and size of tanks being upgraded or repaired: (TK # 3, 4) - 10,000*
- (b) Type of tanks:*
- (c) Type of piping: (TK # 3, 4) Piping - Flexible Double Wall OPW Flexworks, (TK # 3, 4) Piping - Shear Valves, (TK # 3, 4) Piping - Single Wall STP/Tanktop Sump*
- (d) Product to be stored in each tank: (TK # 3) - Gasoline - Regular, (TK # 4) - Gasoline - Premium*
- (e) Type of leak detection being used:*
  - Tank:*
  - Piping: (TK # 3, 4) Leak Detect - Piping - Non-Discriminating Sump Sensor with positive shutdown*
- (f) Corrosion Protection being used:*
  - Tank:*
  - Piping:*
- (g) Spill containment devices, piping, and dispenser containment devices:*
- (h) Overfill prevention devices:*
- (i) Manway accessible at grade:*

- (4) The owner must notify this Office when completion of tank upgrade/repair has occurred, on the Notification for Underground Storage Tank Form and the licensed contractor must submit the required job schedule for underground piping upgrade, leak detection, spill and overfill prevention to the OSFM prior to the work being performed. Both forms can be obtained at [www.sfm.illinois.gov](http://www.sfm.illinois.gov) or by calling (217)785-1020.

**(5) SPECIAL CONTINGENCIES :**

Replaced piping exceeds 20 feet or 50% of the total pipe run.

Amendment Reason: The unleaded and premium piping between dispenser 1/2 and the STP's will not pull out through existing 4". We are going to abandon the piping between the STPs and dispenser 1/2 and trench in new piping between dispenser 1/2 and 3/4

**NOTE: The piping must be removed as there is no plausible reason for it to be abandoned rather than being removed**

**(6) PERSON, FIRM OR COMPANY PERFORMING WORK:**

Hinderliter Construction & Maint., Inc.  
3601 North St. Joseph Avenue  
Evansville, IN 47720
