

Office of the Illinois State Fire Marshal Division of Petroleum and Chemical Safety 1035 Stevenson Drive Springfield, IL 62703 2177851020

FOR OFFICE USE ONLY

Facility # 3034314 Permit # 00238-2022UPG Request Rec'd 03/09/2022 Amended Date Approval Date 3/10/2022 DS Permit Expires 9/12/2022

Permit for UPGRADE or REPAIR of Underground Storage Tank(s) and Piping for Petroleum and Hazardous Substances.

Permission to upgrade or repair underground storage tank(s) or piping is hereby granted. Such upgrade or repair must be in complete accordance with acceptable materials as specified in the Federal Register, Part II Environmental Protection Agency, 40 CFR Parts 280 and 281, and also with all sections of 41 Illinois Administrative Code, Parts 174, 175 and 176. The contractor the permit was issued to or an employee of that contractor (this does not include a subcontractor) shall submit a required job schedule for underground piping upgrade, leak detection, spill and overfill prevention of underground storage tank(s) to the Office of the State Fire Marshal, Division of Petroleum and Chemical Safety.

(1) <u>OWNER OF TANKS</u> - Corporation, partnership, or other business entity:	(2) <u>FACILITY</u> - name and address where tanks are located:
City of East Peoria 400 W. Washington St	East Port Marina 701 Mariners Way East Peoria, IL 61611
Contact: Ron Roberts (309) 265-4789	Contact: Ron Roberts (309) 265-4789

(3) UPGRADE OR REPAIR OF TANKS:

- (a) Number and size of tanks being upgraded or repaired: (TK # 1) 12,000
- (b) Type of tanks:
- (c) Type of piping: (TK # 1) Piping Flexible Double Wall A.P.T. Poly Tech S175SC
- (d) Product to be stored in each tank: (TK # 1) Gasoline Regular
- (e) Type of leak detection being used:

Tank:

Piping:

(f) Corrosion Protection being used:

Tank:

Piping:

- (g) Spill containment devices, piping, and dispenser containment devices:
- (h) Overfill prevention devices:
- (i) Manway accessible at grade:
- (4) The owner must notify this Office when completion of tank upgrade/repair has occurred, on the Notification for Underground Storage Tank Form and the licensed contractor must submit the required job schedule for underground piping upgrade, leak detection, spill and overfill prevention to the OSFM prior to the work being performed. Both forms can be obtained at www.sfmillinois.gov or by calling (217)785-1020.

(5) <u>SPECIAL CONTINGENCIES</u> :

The APT currently connecting the sub pump to the transition sump that is located in the tank area doesnt have secondary containment. IOME will drain the line back. If there is enough good pipe remaining we would jacket cut the ends allowing for a secondary boot. Install secondary boots on both ends and install proper APT hose barb fittings. Complete new piping to the ball valve and make final connections. Primary and scondary testing as required.

Futhermore, we will re-program the TLS for positive shut down on tank sumps if not programmed that way now.

Replaced piping exceeds 20 feet or 50% of the total pipe run.

(6) PERSON, FIRM OR COMPANY PERFORMING WORK:

Illinois Oil Marketing Equipment, Inc. 850 Brenkman Drive Pekin, IL 61554 Contact Person: Bryan Estes Phone: (309) 347-1819 Contractor Registration # IL1293 Exp. 2/4/2024

Sincerely,

Daniel J. Starke
