Red Jacket 0410981-001 BFX1V Biofuel Mechanical Line Leak Detector, Gasoline

The Red Jacket® 0410981-001 BFX1V Biofuel Mechanical Line Leak Detector is a high-performance, UL Listed solution engineered to meet the demands of modern fueling environments. Designed for compatibility with gasoline blends up to E85, this detector offers robust protection against leaks and corrosion in systems exposed to ethanol, biodiesel, and specialty fuels.

Permanently installed in the fuel line, it performs automatic 3 GPH (11.4 LPH) leak tests, ensuring compliance with U.S. EPA catastrophic leak detection standards. Its stainless steel construction resists harsh conditions, making it ideal for sites with corrosive sump environments. With flexible installation, broad fuel compatibility, and minimal maintenance requirements, the BFX1V model delivers reliable performance and long-term durability.
