RE: Petroleum Containment Compatibility with Alternative Fuels

Petroleum Containment products are compatible with Alternative Fuels such as Biodiesel and Ethanol blended fuels as well as (Diesel Exhaust Fluid (DEF).

Our products are engineered with the same UL listed materials used in the production, manufacture and certification of fiberglass underground storage tanks related to the UL Standard 1316. Our Fiberglass containment sumps exceed the standards related to Biodiesel, Ethanol and Alcohol blends without failure.

All of Petroleum Containment (PCI Sumps) sumps are compatible with Biodiesel and Ethanol fuel blends up to B100 and E100.

UL Approved Products by Model:

- Tank Sumps
 - 4200 Series
 - 4500 Series
 - 4800 Series
- Dispenser Sumps
 - RSC Series
 - CLE/CLS Conduitless Series
 - DEF Series
 - DCL Conduit less Series
 - MVR Series
- Transition Sumps
 - Below Grade Series
 - Above Grade Series
- Penetration Fittings
 - TPT, TPP, SRB, FRP, BSO, STF Series

Should you need additional information regarding PCI products, please feel free to contact me at 904-358-1700.

Sincerely,

Joey Arn
President
