**Subject: Bio-Fuel Compatibility**

To Whom It May Concern:

Ameron Dualoy<sup>®</sup> 3000/L and 3000/LCX fiberglass piping systems (pipe, fittings and adhesive) are compatible with all concentrations of ethanol and ethanol blended fuels, from 0% to 100% ethanol content in gasoline.

The Dualoy product lines are also compatible with all concentrations of methanol blended fuels and all concentrations of bio-diesel.

Ameron Dualoy products are the only fully Listed systems for all applications, fuels and product types by Underwriters Laboratories Standard 971-2004.

Dualoy products were the first Listed by UL for full alcohol compatibility in 1988. Prior to that date, UL did not offer a Listing for alcohol blended fuels, although legacy Dualoy products prior to the Listing were compatible with ethanol and all concentrations of ethanol blended fuels.

For questions or other information needs, please contact Joie L. Folkers – Vice President Sales & Marketing at the above address or phone number or at [jfolkers@ameron.com](mailto:jfolkers@ameron.com).

Respectfully submitted,

A handwritten signature in blue ink that reads 'Joie L. Folkers'.
