

Mechanical Line Leak Detector 99 LD-2000

U.S. Patent No. 4,966,190
Designed and Manufactured in U.S.A.

Innovative design, superior performance, and the VMI 2-year warranty (after installation) make the 99 LD-2000 more attractive to station operators today than ever before.

VMI leak detectors with an integrated check valve and pressure relief valve will save money, reduce customer frustration at the dispenser, and reduce service calls.

HIGHEST PERFORMANCE,

MOST REQUESTED MLLD BUILT TODAY.

Features:

- Any fuel compatibility reduces warehouse and truck stocking needs
 - Alcohols, Biodiesel, Aviation, Gasoline, Diesel
- DEF and many chemicals
- Any pump
- Electronic interface available
- Longest length pipeline system
- Largest volume pipeline system
- Integrated check valve/pressure relief
- Field adjustable for high resiliency applications
- Guaranteed for 24 months from date of installation to detect 3 GPH @ 10 PSI leak
- Shortest leak detector profile
- Exceeds EPA regulations
- Detects leaks up to 10' above the leak detector
- Installs with 2" six-point socket or pipe wrench
- Highest level of performance over broadest range of applications

ONLY 2" MLLD CAPABLE OF HOLDING LINE PRESSURE AFTER THE PUMP IS OFF, EVEN WITH PUMP COMPONENT WEAR OR FAILURE

Mechanical Line Leak Detector 99 LD-2200

U.S. Patent No. 4,966,190
 Designed and Manufactured in U.S.A.

The 99 LD-2200 is the first generation of VMI leak detectors to operate without the VMI integrated, in-line check valve. It provides the best value in catastrophic line leak detection of any leak detector available today.

The 99 LD-2200 is the best value in leak detection available in its price range. This leak detector has significantly enhanced capability to dampen the effects of hydraulic shock and pump turbulence.

Most Cost-Efficient Line Leak Detection Available!

Features:

- Any fuel compatibility reduces warehouse and truck stocking needs
 - Alcohols, Biodiesel, Aviation, Gasoline, Diesel
- Any pump
- Longest length pipeline system
- Largest volume pipeline system
- Field adjustable for high resiliency applications
- Installs with 2" six-point socket or pipe wrench
- Highest flow capacity
- Guaranteed for 24 months from date of installation to detect 3 GPH @ 10 PSI leak
- Shortest leak detector profile
- Exceeds EPA regulations
- Detects leaks up to 10' above the leak detector

ALLOWS MORE FLOW THAN ANY OTHER LEAK DETECTOR ON THE MARKET TODAY!
