RE: Compatibility Of Legacy Environ FRP Tank Sumps

Dear Mr. Sauers,

Per our discussion, I contacted the original manufacturer of the legacy environ frp tanks sumps to discuss their compatibility with 100% biodiesel. Although 100% biodiesel is not a regulated fuel, independent variable tests indicate that the resins and manufacturing methods used to produce these sumps are indeed compatible with this fuel.

Should you have any questions or concerns regarding this information, please do not hesitate to contact me directly.

Best regards,

Jonathan Stong
