Skip,

If you don't mind me asking, what is the violation for?

This particular meter was most likely sold to a company by the name of Clean Fuel Technology. This company held exclusive rights to this particular meter. Meaning, they held the weights and measures certificate for the meter. Unfortunately, this company has gone out of business and to the best of my knowledge, never recertified this meter. We ourselves recently removed this meter from our UL listing due to there being no market for us in this style meter.

Good afternoon,
I'm working on a notice of violation for the state of IL. Please let me know if you can provide a Ethanol compatibility sheet for the LPM-101E meter.

Thanks
