GILBARCO
VEEDER-ROOT

Your customers are demanding more and more alternative fuel options. Encore® Flexible Fuel Dispensers help broaden your fuel offering while keeping the fueling experience simple — and safe.

With the industry's broadest set of flexible fuel options, Enclave offers up to five product selections from one fueling position. It's a smart investment that lets you maximize bonding and sales opportunities, while keeping the number of tanks needed to a minimum. All with the unmatched durability and reliability you expect from the industry leader in flexible fuels.

Our newest model, N14, is a Multi-Hose Hybrid Blender, allowing you to offer three grades of blended gasoline, as well as two additional blended grades of alternative fuel that blend through their own individual hoses. Combined with clear signage, this feature prevents mis-fueling at the pump.

The Encore Flexible Fuel dispenser comes with all the same selling tools and value-added options as a traditional Encore unit:

- > Applause® TV or Applause Media System on 10.4" color screen
- > Highly secure and powerful CRIND® electronics
- > 2 year parts and labor warranty

Technology with a human touch.
