

The Red Jacket Submersible Turbine Pump AG

Key Features:

- Industry's newest motor design
- Track record of unsurpassed reliability
- Designed to maximize safety and ease of installation
- UL listed biofuel compatibility

Specially designed for resiliency in the harsh alternative fuel environment.

Fuel Compatibility:

- Methanol concentrations up to 100%
- Ethanol concentrations up to 90%
- MTBE, ETBE, or TAME concentrations up to 20%
- 100% Gasoline, Diesel and up to 100% Biodiesel
- Jet Fuel, AVGAS, Kerosene, and Fuel Oil

Designed for Hazardous Location:

- Class 1, Group D atmospheres

UL Listings:

- 100% Diesel
- 100% Gasoline
- UL79A: 85% Ethanol (E85)
- UL79B: Up to 20% Biodiesel (B20), 100% Biodiesel (B100)
- UL79B: Kerosene and Fuel Oil
- Gasoline and up to: 15% Methanol, 20% MTBE, 20% ETBE, 20% TAME

Performance @ 230V; SG = 0.78
